

PROJECT CO-FINANCED BY THE EUROPEAN UNION

Project InternaXilon

FESR European Regional Development Fund Lazio Regional Operational Programme

Aim:

The InternaXilon project is aimed at improving the diffusion of new technological solutions, to improve the quality of company products destined for foreign markets, of the new product concept and of the company brand.

It therefore takes the form of internationalisation activities for the dissemination of results and the promotion of new products through participation in the "ISH 2019" event in Frankfurt, the most important European trade fair for the company's reference sectors and one of the most important in the world, with the presence of operators from all over the world.

The objective of the project is therefore to further enhance its production excellence also on international markets by presenting new products to attract potential customers internationally in order to consolidate its position, increase turnover, production and employment.

The project is carried out by XILON S.R.L. and is co-financed by POR FESR Regione Lazio 2014-2020, as part of the Public Notice "Contributions to support the internationalization processes of SMEs in Lazio 2018".
